

LBV-Series

Professional Leaf Blower

For Tractors 15- 50HP

<84dB

find current Prices here!

The Blower is supported by a heavy duty castor, is easy to move over rougher ground and with an air velocity of 230 km/h it allows even wet heavy material to be lifted.

- The LBV Blower can be supplied with a variety of mounting frames and PTO speeds to suit tractor front or rear linkage or special

- The plastic housing & aluminium fan wheel reduce noise to an absolute minimum- ideal around schools

Front Support Wheel Protects the outlet chute from damage and makes the transport and storage easier

LBV-HUT-HD/E Hydraulic or Electric 360 degree rotational outlet chute. Use from the cab with a set of double acting spool valves or a 12 volt supply which is required to operate these accessories

attachable to following vehicles:

noise reducing plastic fan housing

Selection of mounting frames (ABR Bracket)

Dynamically balanced aluminium fan

optional 360 degree outlet

Heavy duty support wheels

Front support wheel
