# Weedo-Series Weedo II

£4995

A) 700 000 135 - Steel Versa Brush (6 required per set) £10.95

B) 700 000 135N - Nylon Versa Brush (6 required per set) £10.95

The Weedo II is probably the toughest dedicated weedbrush available in the UK for areas such as social housing and is ideal for contractors covering many small sites. The weedbrush allows clearance of both moss and more stubborn weeds from hard surfaces such as tarmac or block paving.

Operating the machine is as simple as one lever. The left hand controls the operation of the brush, while the operator controls the forward speed by varying the pressure of the brush on the ground. The folding handlebars and its compact design mean it is easily transported from site to site and allows it to excel in tight areas. Many fine adjustments enable the brush consumption to be greatly reduced and the operator comfort to be increased. The weedbrush can be set to the right or the left hand side of the machine for clearing long paths in either direction.
